

*Some of the many Analytical Solutions we have  
Delivered for our Clients:*

- ⌘ Bioaccumulation of Metals
- ⌘ Characterization of Drug-eluting Stents / Balloons
- ⌘ Pharmacokinetic (PK) Studies
- ⌘ Method / Assay Development and Validation
- ⌘ Complex Extractions
- ⌘ Pre-Clinical and Clinical Study Bioanalytical Support
- ⌘ Limit of Quantitation for Phthalates
- ⌘ Measurement of Cholesterol in Food Products

*Katz Analytical Services*

2499 Rice St, Suite 90  
Roseville, MN 55113

*Providing Analytical Solutions  
for Complex Problems*

*Overview of  
Client Services*

*How will **KAS**  
help you deliver  
results?*

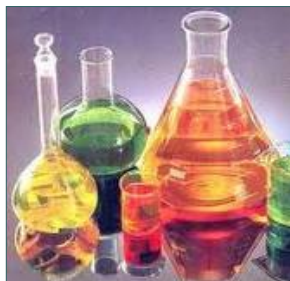

KAS doesn't simply deliver data, but works to understand and partner with our clients to troubleshoot the most complex of problems:

From early stage discovery, method development and support of pre-clinical and clinical studies, through production control.

## About Katz Analytical

### Our History

We are a **GLP** and **cGMP compliant** analytical laboratory located in the Minneapolis /St. Paul metropolitan area, dedicated to providing a broad range of state of the art analytical characterization, bioanalytical and consulting solutions to the Medical Device, Pharmaceutical, Biotechnology, Nutraceutical and related industries.

Katz Analytical roots date back to 1989, when Bill Katz, PhD founded the first Katz Analytical Lab, and later in 1995 founded Materials Evaluation and Engineering, Inc (MEE). These Katz laboratories quickly became recognized throughout the Midwest as premier testing facilities in the analytical community.

### Our Philosophy

KAS' dedication to quality and technical leadership continues today.

We are committed to:

- Customized project quoting, per our client's unique needs.
- Scientist-to-Scientist communication for effective partnership.
- Supporting medical device and pharmaceutical testing with senior-level personnel (most with PhDs, with at least 15 years relevant industry experience).
- Flexibility in accommodating a demanding schedule that meets your time-sensitive requirements.
- Managing data integrity, compliance, format, and confidentiality with a robust internal Quality Management System.

*Our total commitment to these concepts facilitates the success of your development goals, leading to growth and value.*

## Services Provided

### Bioanalytical

- ⌘ Feasibility Studies
- ⌘ Method/Assay Development, Validation and Transfer (GLP and cGMP)
- ⌘ Metals Analysis
- ⌘ Small and Large Molecule Testing
- ⌘ Pharmacokinetics

### Pre-Clinical and Clinical Study Support

- ⌘ Feasibility Studies
- ⌘ Method/Assay Development, Validation and Transfer (GLP, cGMP, R&D)
- ⌘ Extraction Method Development
- ⌘ Extractables and Leachables Testing
- ⌘ Metals Analysis
- ⌘ Implantable Devices
- ⌘ Drug-eluting Stents / Balloons
- ⌘ Pharmaceutical

### Sample Analysis

- ⌘ Incoming Materials
- ⌘ Manufacturing Support
- ⌘ Final Product Release Testing
- ⌘ Sample Preparation
- ⌘ Process Control
- ⌘ Quality Control
- ⌘ Routine and non-Routine Testing

### Consulting

- ⌘ Intellectual Property Evaluation / Patent Support
- ⌘ Expert Witness / Litigation Support
- ⌘ Industrial Problem Solving
- ⌘ Laboratory Operations (GLP and cGMP)
- ⌘ Surface Characterization
- ⌘ Mechanical Engineering
